

61 Southwark Street, London SE1 0HL

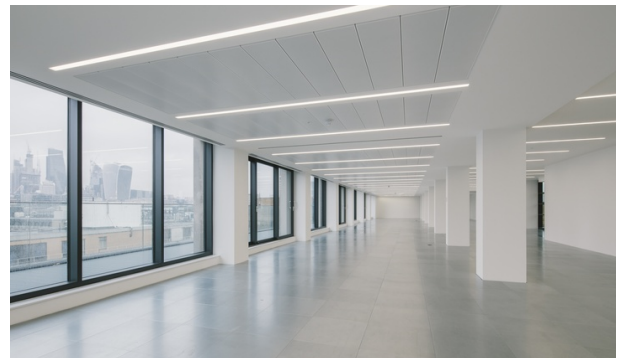

Client: Collins Construction

Project Value:

Scope of Works

High-end Cat A office refurbishment

The project was a Cat A refurbishment of 9 floors of an existing office building, for H B Reavis in London SE1, with Winters being employed by the main contractor Collins Construction. The project for Winters, included full design & build scope of the electrical services. These included the installation of a new HV transformer, a new LV Switch Panel, a replacement fully metered Mechanical Panel, also a modular wiring system for the lighting and power installations. The electrical design and installation also incorporated a new LV distribution system with two rising busbars. Specialist trades and services were also in Winters contract including the installation of; a Disabled Refuge System, a Fire Alarm System, an Access Control System, Lightning Protection System, a Simmtronic lighting control system, and the containment for the electrical services and specialists.
