

Riverside House

Client: Willmott Dixon

Project Value:

Scope of Works

Fit Out of Major Office Development

The contract covers a four and a half million pound electrical design and fitout of large sections of the riverside office building. It also includes a difficult and complex refurbishment of the landlords main LV panel, which needs to be undertaken, whilst keeping the occupied areas fully operational. The fitout scope includes the complete strip out and refit of the electrical services to 7 floors of office areas, also the core and reception areas to all 11 floors. The works include new lighting, small power, Simmtronic lighting control, emergency lighting, fire alarm, CCTV, disable refuge, and lightning protection systems.
